Dear George:

We have set the color combinations in such a way as to start you off with a complimentary color scheme.

a. #K188 Fire Red shall be used with door colors:

d. #K186 Royal shall be used with door colors:

- # 4 Vermillion
- # 3 Orange
- # 2 Yellow

As we have already stated, all four fabric colors are completely compatible with all 12 door colors. As moving furniture from area to area necessitates color rearrangement, you will always have an acceptable color combination. However, we do not suggest that any more than one fabric color (plus black) be used in any one office.

This shall be presented in chart form with the drawings as a part of the task order, but this letter should help guide your ordering of fabric at this time.

Sincerely,

I.S.D. INC.
